

TPA

Rapid Rail Access

EMBANKMENT STEPS

The most versatile temporary stairway access solution for your Rail project.

TPA's range of embankment steps are widely used across a number of sectors. Mainly they are utilised to provide safe pedestrian access up and down embankments and steep slopes. The stairways are hand portable, easily installed and can be ready for use in minutes.

Working on gradients between 25° and 50°, users can carry small tools, equipment and materials in safety and comfort. Designed to look after workers, the steps feature double handrails which adjust automatically to the correct angle and height for use. The treads remain horizontal whatever the angle of installation. The steps are manufactured in a steel section and has a galvanised finish as standard.

KEY BENEFITS

**INNOVATIVE
SOLUTION**

PROTECTIVE

**SAFETY
APPROVED**

**QUICK &

HANDRAILS SPECIFICATION

>> Description	Weight (kg)
Handrail 3 Steps	5
Handrail 6 Steps	8
Handrail 9 Steps	10
Handrail 12 Steps	14
Handrail 15 Steps	16
Handrail 18 Steps	20

TPA stairways will fit a great variety of slope and embankment configurations. The fully adaptable system incorporates self-levelling steps and hand rails, which accommodate a range of vertical heights due to the self-levelling articulation of the unit. Being over 750mm wide, the stairway permits occasional passing.
